- Any dispute between the Buyer and the Seller in respect to the interpretation and/or performance of these Terms shall be determined in accordance with International Seed Federation Rules ("ISF Rules"), to the extent that ISF Rules do not conflict with these Terms.
- The buyer has the responsibility of testing this seed for germination at an ISTA accredited laboratory within 20 days of arrival date and will provide the Seller with evidence of that action. Failure to do so, within that time, means the buyer has sole responsibility and risk for the germination performance of the seed after that date.
